Lectures & Presentations

IEEE CS/SMCS: Guest talk - Sherif Sakr: “Big Data 2.0 Processing Engines”

Monday, 7. August 2017, 15:00 - 16:00

Location: SBA Research, Vienna

In cooperation with the Innovation Incubation
Center (i²c) of TU Wien

IEEE TEMS Focus Africa: Corporate Social Responsibility (CSR) accross borders

Thursday, 7. September 2017, 18:30 - 21:30

Location: Salon Razumovsky, Jacquingasse 57, 1030 Wien

We will look into practices and strategies to operate with the highest ethical standards and

maximise the benefits of business expansion in Africa. A critical success factor in doing business in Africa is to exercise CSR initiatives in the form of fair trade, skills development, job creation and environment management.

Summer School on Singularities of Mechanisms and Robotic Manipulators

From Monday, 18. September 2017 To Friday, 22. September 2017

Location: Institute of Robotics, Johannes Kepler University Linz

Singularity analysis is a central topic of mechanism and robot kinematics. It provides an insight of major practical and theoretical importance for the design, control, and application of robot manipulators. The purpose of the course is to introduce attendees to milestone results, key methods, and main problems in singularity analysis.

Conferences

Formal Methods in Computer-Aided Design (FMCAD)

FMCAD 2017 is the seventeenth in a series of conferences on the theory and applications of formal methods in hardware and system verification. FMCAD 2017 will be collocated with MEMOCODE'17, the 15th ACM-IEEE International Conference on Formal Methods and Models for System Design, September 29–October 2, 2017.

2017 IEEE International Symposium on System Engineering

The Systems Council is pleased to

2017 IEEE International Symposium on
SYSTEMS ENGINEERING

ISSE 2017

Vienna, Austria - October 11-13, 2017

announce the third IEEE International Symposium on Systems Engineering will be held October 11-13, 2017, in Vienna, Austria. This symposium seeks to create an interactive forum for the advancement of the practice of systems engineering across multiple disciplines and specialty areas associated with the engineering of complex systems.

Austrochip 2017 - 25th Austrian Workshop on Microelectronics

Austrochip is an annual meeting and platform to present the latest activities in the field of microelectronics and integrated circuits in Austria and neighboring countries. The workshop is a forum for discussion and contact between academia and industry. Austrochip 2017 is the 25th edition organized by the Institute for Integrated Circuits (IIC) of Johannes Kepler University Linz.
