Conferences

IWSLS² - 2nd International Workshop on Link and System Level Simulations

Friday, 11. May 2018
Location: TU Wien, Institute of Telecommunications (ITC)
IWSLS² is an international workshop on theoretical, experimental, and applied research on link and system level simulations as well as measurements of cellular wireless communication networks. IWSLS² brings together researchers and developers from both academia and industry to report the latest scientific and theoretical advances, to debate major issues and to demonstrate state-of-the-art systems.

IEEE RAS: Austrian Robotic Workshop 2018

From Thursday, 17. May 2018 - 08:00, To Friday, 18. May 2018 - 17:00
Location: Universität Innsbruck Innrain 52
The sixth Austrian Robotics Workshop seeks to bring together researchers, professionals and practitioners working on different topics in robotics to discuss recent developments and future challenges in robotics and its applications. The organizers envision strengthening the cooperation between academia and industry. Therefore, the contributions and participation from industry is encouraged.
CoBCom

From Wednesday, 11. July 2018, To Friday, 13. July 2018
Location: Graz University of Technology, Inffeldgasse 12
The CoBCom (International Conference on Broadband Communications for Next Generation Networks and Multimedia Applications) 2018 will provide an opportunity for the academic and industrial communities to address new research challenges, share solutions and discuss issues in information and communication technology (ICT) referring to modern telecommunications.
