

Event Update

**DEAR IEEE AUSTRIA
SECTION MEMBERS,**

besides an update of the upcoming events, we would like to wish you a good start into the new year!

IEEE SECTION AUSTRIA IS SUPPORTING STUDENT ACTIVITIES

The IEEE Austria Section is supporting students in enhancing their career and setup innovative events together with their study colleagues by offering two award programmes specifically designed for them. The **IEEE Austria Student Mobility and Conference Grant** support section student members to participate at conferences, workshops and other educational activities in the fields of IEEE and related. The goal is to assist applicants to advance their education, make international contacts and gain additional experience. Deadlines for submissions are 1st of February, 1st of June and 1st of September each year.

The IEEE Austria Student Branch Award encourages innovative new concepts applied by the Student Branches and activities or events creating positive impact for students. If students created some cool new events or did something special they can contact the local student branch or the student branch coordinator . They will be happy to integrate their efforts and apply in one of the categories of the Student Branch Award.

Deadline for submission is the 15th of September .

AWARDS

APPLY FOR THE IEEE SECTION AUSTRIA STUDENT AWARDS

Find out how the IEEE Austria Section is supporting you in enhancing your career and setup innovative events together with your study colleagues. The IEEE Austria Section has two award programmes specifically designed for students: The IEEE Austria Student Mobility and Conference Grant and the IEEE Austria Student Branch Award.

Conferences

JC&S Symposium 2022

2nd IEEE International Symposium on Joint Communications & Sensing (JC&S)

From Wednesday, 9. March 2022

To Thursday, 10. March 2022

Location: Congress Center Seefeld, Innsbruck, Austria

The integration of communication and radio sensing in the same spectrum is likely to be one of the key features in B5G wireless systems. Therefore, Joint Communications and Sensing (JC&S) is the subject of rapidly growing interest in the research community, and this symposium will focus on the different system and implementation aspects of this promising new approach, bringing together academic and industrial experts from both the radar and communications research communities.

After being virtual-only in 2021, the event returns in 2022 with a hybrid event, allowing in-person exchange for those who are able to attend in lovely Innsbruck, Austria. For those unable to attend, all sessions will also be streamed online.

IWBF 2022

International Workshop on Biometrics and Forensics
From Wednesday, 20. April 2022
To Thursday, 21. April 2022
Location: Salzburg, Austria

The 2022 International Workshop on Biometrics and Forensics (IWBF 2022) is an international forum devoted to facilitating synergies in research and development among the areas of multimedia forensics, forensic biometrics, and forensic science. State-of-the-art research in areas such as biometrics, forensic science, surveillance, and multimedia forensics will be presented. The 10th edition of IWBF will be a meeting place for those concerned with the use of advanced biometric technologies in forensic applications, attracting participants from industry, research, academia, and end-users.

IPTA 2022

Eleventh International Conference on Image Processing Theory, Tools and Applications (IPTA)
From Tuesday, 19. April 2022
To Friday, 22. April 2022
Location: Salzburg, Austria

The 2022 Eleventh International Conference on Image Processing Theory, Tools and Applications (IPTA) aims at gathering international researchers, innovators, educators, and practitioners in image processing for attending extensive educational high level materials, sharing their achievements, exchanging their experiences and discussing future orientations.

ISSE 2022

45th International Spring Seminar on Electronics Technology (ISSE)

From Wednesday, 11. May 2022

To Wednesday, 15. June 2022

Location: Vienna, Austria

The European School of Information Theory (ESIT) is an annual educational event, organized by the IEEE Information Theory Society (ITSoc), for graduate students, postdocs and researchers from institutes throughout Europe and beyond.

In 2022, the school will be held in-person (provided circumstances allow) in Vienna, Austria, featuring several plenary talks, attendee poster sessions and social events.

iLRN 2022

8th International Conference of the Immersive Learning Research Network (iLRN)

From Monday, 30. May 2022

To Saturday, 4. June 2022

Location: Vienna, Austria (in person) and online in iLRN's Virtual Campus powered by Virbela

The 8th International Conference of the Immersive Learning Research Network (iLRN 2022) will be an innovative and interactive gathering for a flourishing global network of researchers and practitioners collaborating to develop the scientific, technical, and applied potential of immersive learning. It is the premier scholarly event focusing on advances in the use of virtual reality (VR), augmented reality (AR), mixed reality (MR), and other extended reality (XR) technologies to support learners across the full span of learning—from K-12 through higher education to work-based, informal, and lifelong learning contexts.

Following two years of innovative fully online and in-VR conferences, this year's conference will, for the first time, offer a hybrid experience with two days of presentations and activities on the iLRN Virtual Campus, powered by VirBELA, followed by three days on location in Vienna, Austria.

RAAD 2022

31st International Conference on Robotics in Alpe-Adria-Danube Region (RAAD)
From Wednesday, 8. June 2022
To Friday, 10. June 2022
Location: Klagenfurt am Wörthersee, Austria

RAAD 2022 will bring together academic and industry researchers in robotics from the Alpe-Adria-Danube Region affiliated countries and their worldwide partners in a collegial and stimulating environment. According to its tradition, RAAD 2022 will cover all major areas of R&D and innovation in robotics, including new research trends such as: bio-inspired and cognitive robots, visual servoing of robot motion, human-robot interaction, cloud robotics and personal robots for ambient assisted living.

ARW 2022

Austrian Robotics Workshop 2022
From Tuesday, 14. June 2022
To Wednesday, 15. June 2022
Location: Congress Center Villach, Austria

The Austrian Robotics Workshop aims to provide a vivid environment for exchange about current

research topics in the area of robotics and related technologies. This year's workshop comes with an additional focus on the emerging topic "robotics for assistance and in healthcare". We are looking forward to the presentation and discussion of research progress as well as current projects.

The workshop will be held at Congress Center Villach on 14th and 15th of June 2022. A specific goal is to strengthen the cooperation between academia and industry. Therefore, contributions and participation from industry are strongly encouraged.

Austrian Robotics Workshop Focus: Robotics in Healthcare

ESIT 2022

IEEE European School of Information Theory

From Sunday, 3. July 2022

To Thursday, 7. July 2022

Location: Vienna, Austria (in person) and online in iLRN's
Virtual Campus powered by Virbela

The European School of Information Theory (ESIT) is an annual educational event, organized by the IEEE Information Theory Society (ITSoc), for graduate students, postdocs and researchers from institutes throughout Europe and beyond. The objective of the school is to provide participants with the opportunity (i) to learn from distinguished lecturers by attending long-format tutorials, (ii) to present their own work to obtain feedback and to start up collaborations, (iii) to hear about applications of information theory in industry, and (iv) to participate in a stimulating and inviting forum of scientists.

In 2022, the school will be held in-person (provided

circumstances allow) in Vienna, Austria, featuring several plenary talks, attendee poster sessions and social events.
