

Event Update

DEAR IEEE SECTION MEMBERS

The section has been bustling with activities over the past few months, as highlighted in this newsletter. Alongside updates on upcoming events, we warmly remind you to join the section's upcoming General Assembly. Details regarding the date, location, and registration can be found below in the "Meetings" section.

AUSTRIA SECTION SENSORS SUMMIT

At the end of September 2024, the section, in collaboration with all chapters and affinity groups, organized the inaugural Sensors Summit in Vienna. The event was sponsored by the IEEE Sensors Council and aimed to connect engineering students with researchers from industry and academia, particularly those involved in industry-focused projects.

The summit featured six engaging talks covering diverse topics and applications, including electrical grid stabilization, brain-machine interfaces, printed electronics, and precision sensing. These presentations provided participating students with valuable insights into cutting-edge research and developments in the industry.

Many thanks to all participants!

VACANT SECTION OFFICER POSITIONS

The following section position(s) are currently vacant:

1. Chapter Coordinator
2. Public Relations Officer
3. Educational Activities Officer
4. Professional Activities Officer
5. Award Officer

Potentially interested volunteers are being asked to contact the section's chair about those vacant positions) or potential other ways to get engaged in the section's activities!

[CONTACT SECTION CHAIR](#)

IEEE DIVISION IX DIRECTOR-ELECT 2025

Cristina Olaverri-Monreal, a professor at Johannes Kepler University, former President of the IEEE Intelligent Transportation Systems Society (ITS), and Chair of the ITS Austria Section Chapter, has recently been elected Director-Elect of IEEE Division IX.

The section extends its heartfelt congratulations and best wishes for her continued success!

LIFE MEMBER AFFINITY GROUP AUSTRIA

Our section is proud to have many Life Members (LM) and is delighted to announce the successful approval of a Life Member Affinity Group (LMAG) in late September. Michael Heiss has been appointed as its interim Chair.

The section wishes him and all LMAG members great success!

IEEE-OVE MEMBER DISCOUNT

Section members who are also OVE members are eligible for a membership discount through a national society agreement between IEEE and OVE! Use the promotion code for reduced fees, available via the link below.

IEEE NATIONAL SOCIETY AGREEMENTS

STUDENT ACTIVITIES SUPPORT

The section supports students in advancing their careers and organizing innovative events with their peers through two award programs designed specifically for them.

IEEE Austria Student Mobility and Conference Grant

This grant helps section student members participate in conferences, workshops, and other educational activities within IEEE-related fields. The goal is to support applicants in advancing their education, building international connections, and gaining valuable experience.

The submission deadlines are February 1st, June 1st, and September 1st each year!

IEEE Austria Student Branch Award

This award recognizes innovative initiatives and impactful activities or events created by Student Branches. Students who have organized unique events or made special contributions can contact their local Student Branch or coordinator to apply for one of the award categories. The deadline for submission is September 15th.

The submission deadline is the 15th of September each year!

AWARDS

APPLY FOR THE SECTION STUDENT AWARDS

Find out how the section is supporting you in enhancing your career and setup innovative events together with your study colleagues. The section has two award programmes specifically designed for students: The IEEE Austria Student Mobility and Conference Grant and the IEEE Austria Student Branch Award.
